

FLASH^{light} Magna 4.0

LED Dental Curing Light

It's All in the Beam

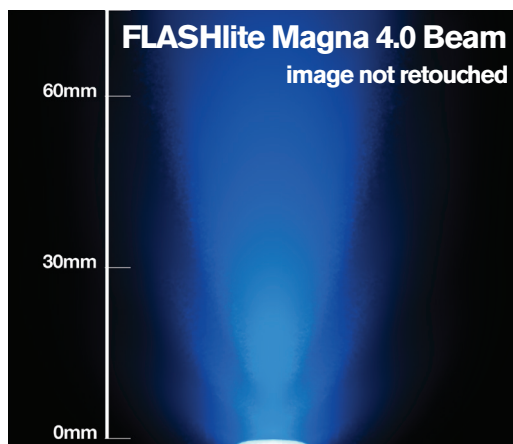

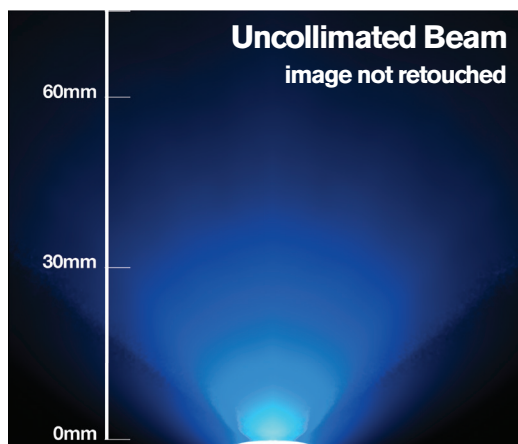

The most convenient and affordable curing light just got more powerful than ever!

FLASH^{light} Magna 4.0

LED Dental Curing Light

Experience FLASHlite Magna 4.0's unparalleled beam collimation

FLASHlite Magna 4.0's proprietary optics reduce the beam divergence often experienced with earlier generation beams, achieving maximum curing effectiveness in deep preps.

Accessories

Benefits of better collimation:

- Harder Composites
- Increased Bond Strength
- Increased Longevity of Restoration
- Less Sensitivity
- Decreased Marginal Washout

Tacking Tips
Disposable tacking tips that redirect light to cure an area of approximately 2mm.

Light Shield
Help block reflected light with the easy-to-use, slide-on light

- 2-year warranty
- 30-day money-back guarantee
- 10 years sales history
