

Figure 1 displays two rows of tooth models, labeled 21L* (top) and 21L (bottom). Each row shows a series of teeth from the incisor to the molar, with a single molar model shown separately on the right. The 21L* model has a width of 30.1 and a height of 9.6. The 21L model has a width of 30.7 and a height of 10.0.
